TRAVEL & LOCATION

AXIS instructors are deployable to any global location.

AXIS Flight School's base of operations is located at – but is not affiliated with – Skydive Arizona.

CAPABILITY STATEMENT AND CORE COMPETENCIES

Mission Statement

Since 2008, AXIS Flight School has delivered a targeted, first-class level of canopy flight and freefall instruction, in various locations and for different military branches of the US and her NATO allies.

As Course Directors, the AXIS team design each training to fit the precise needs of the unit's operational scenario, focusing on tactical applications, equipment considerations and extraordinary variables. As a result, operators emerge equipped with the skills necessary to operate efficiently, competently, and safely.

Supporting Wounded Veterans

In close cooperation with Operation Enduring Warrior, AXIS Flight School is actively empowering and motivating wounded veterans who wish to enter the world of skydiving. AXIS offers specialized AFF and wind tunnel training for veterans with life altering injuries and/or mental trauma.

Industry Leaders in the Education of Skydivers

AXIS Flight School regularly publishes articles and instructional videos on skydiving related topics, as evidenced by monthly articles on skydiving safety and training in USPA's Parachutist magazine (since 2011) and many feature articles in skydiving magazines worldwide. A list of our publications can be provided upon request.

Industry Leaders in Online Tools and Resources

AXIS Flight School hosts the most advanced draw generators and performance evaluation tools available to competition teams. In addition, AXIS has generated a large repository of skydiving knowledge, available for free on its website.
